Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 25th September 1903.

Bye-laws under Section 559 (4) prescribing the procedure to be followed by owners or occupiers desiring a water-supply.

2. Such application shall specify the name of the licensed plumber who is to be employed on the work, and shall be signed by the applicant or an agent duly authorised on his behalf.

Every person who is supplied with filtered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of six annas for every 1,000 gallons, except when water is required for the manufacture of articles for consumption by human beings, when the charge shall be three annas per 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time; such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

In exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 25th September 1903.

Bye-laws under Section 559 (4) prescribing the procedure to be followed by owners or occupiers desiring a water-supply.

1. The owner or occupier of any masonry building in Calcutta who requires a supply of filtered or unfiltered water for use within such building, and any person who required such a supply for the purpose of any business or trade or other object, shall send to the Chairman a written application on a printed form (to be supplied by the Chairman free of charge).

2. Such application shall specify the name of the licensed plumber who is to be employed on the work, and shall be signed by the applicant or an agent duly authorised on his behalf.

Bye-laws under Section 559 (5) prescribing a schedule of charges of water supplied for other than domestic purposes.

Every person who is supplied with unfiltered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of four annas for every 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time. Such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Every person who is supplied with filtered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of six annas for every 1,000 gallons, except when water is required for the manufacture of articles for consumption by human beings, when the charge shall be three annas per 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time; such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Bye-laws under Section 559 (8) of the Act regulating in any particular not specifically provided for in the Act. (i) The construction and maintenance of water-pipes, taps and fittings. (ii) All matters and things connected with the supply and use of water, the control of the water-supply and the administration of Chapter XX of the Act.

1. No person other than a licensed plumber shall execute any work connected with the supply of water to any premises in Calcutta.

2. No stop-cocks, taps, ferrules, cisterns or other fittings shall be used in connection with the water-supply unless they have been previously submitted to and stamped by an officer of the Corporation duly authorised by the Chairman in that behalf with a special direction to indicate that they have been approved under section 260 of the Act.

3. After the application referred to in bye-law under section 559 (4) of the Act has been sanctioned, the licensed plumber in charge of the work shall send to the District Engineer a further written application on a printed form (to be supplied by the Corporation free of charge) for an order authorising him to open the street within which the water main is situated, to enable him to lay the service-pipe connecting such main with the premises in respect whereof the work is being carried on. Such application shall be accompanied by a separate written application for an order directing the shutting off of the water in the main.

Such applications shall be made not later than 2 p.m. on the day previous to that on which the proposed connection is to be made, and shall be accompanied by a fee of Rs. 1-12 in respect of every new connection, shifting connection or re-connection.

If the licensed plumber in charge of the work proposes to lay any pipes or to make any connection under the rails of any tramway or railway, the applications referred to in the preceding paragraph hereof shall be made at least 48 hours before the work is to be commenced.

4. No connection between a service-pipe and a main shall be permitted to be made otherwise than in the presence of the licensed plumber in charge of the work, or of some responsible and qualified person acting on his behalf and of a Municipal Officer authorised in that behalf.

If any excavation made in a street by a licensed plumber is not filled up by him in a proper and workmanlike manner and to the satisfaction of the Municipal Officer hereinbefore referred to, or if the street is not restored to its former condition, or if the street subsides within three months after such excavation has been filled up, the District Engineer may, at the expense of such licensed plumber, carry out such work as may appear to him to be necessary for the purpose of filling up such excavation and restoring such street to its former condition.

If any dispute arises regarding the size or quality of the iron pipe, the matter shall be referred to the Engineer, whose decision shall be final.

15. No service-pipe shall be laid along or through or adjacent to any drain or water-course or in any place where, in the opinion of the Engineer, there is a risk or likelihood of the water in such service-pipe becoming contaminated.

16. No pipe shall be laid through or across any drain or water-course in such a manner as in the opinion of the Engineer is likely to cause an obstruction in such drain or water-course.

17. Every cistern and reserve tank must be absolutely watertight and must be provided with a ball-valve and with a tell-tale or warning pipe made of galvanized-iron and with proper means of access and inspection.

18. No cistern or reserve tank containing or intended to contain filtered water shall be placed immediately over or in the same room as a privy.
